OUR 2020 STUDENTS ARE HEROES

After all the challenges of the pandemic I have been astounded and delighted by the boundless resilience, agility and problem solving skills of our students. Despite the many obstacles that have been placed before them, our students did not lose sight of their educational goals.

This year has also shown us how tremendously important our educators are in being the catalyst for agility and change, while maintaining the continuation of learning throughout constant disruptions. Thank you to all the teachers and support staff who have supported the 2020 cohort throughout this difficult year.

We thank our students for their extraordinary commitment. Setting aside the stresses of this year, there is much to be proud of in 2020.

A note of explanation: The purpose of the ATAR ranking is to provide a mechanism for placement in tertiary institutions. In a community such as ours, where many students are aspiring to gain entry to tertiary courses, it is the ATAR that is important rather than individual study scores. The ATAR is a rank ordering of all students, rather than a percentage mark.
